Show Theme: "Energy in Motion"

Illinois Gourd Society Festival
2010 Competition Rules
Chicago Botanic Garden, September 17-19, 2010

General Requirements

1. Gourds must predominate in all entries. A gourd or gourd pieces must be obvious as all or the major part of the entry.
2. Entries and special exhibits are open to everyone.
3. Entrants aged 14 and under may enter any category and are not limited to the Junior Division.
4. Only one entry per person per entry class is allowed. An entry form is included with these Competition Rules and Requirements.
5. The entry fee is \$1.00 per entry, payable by check or cash to the ILGS. Entry fee for the Junior Division is waived.
6. Items entered in a previous Illinois Gourd Society show at the Chicago Botanic Garden may *not* be entered. Items entered in other gourd shows may be entered.
7. All Exhibits and Entries must be in place with the entry tag (available at registration) attached by 9:30 a.m., Saturday, September 18, 2010. The official entry tag must display the exhibitor name and entry number. The name will be obscured during the competition and judging.
8. Entries must remain in place until 4 p.m., Sunday, September 19, 2010. An entrant's name may be made visible on the tag after judging ends.
9. Judging will take place Saturday, September 18, 2010; starting at 10 a.m. Exhibitors may not interfere with judges while judging is in progress.
10. All classes will be judged: 1st; 2nd; 3rd; 4th; and 5th place. Ribbons will be awarded in each class.
11. Judges will select a category winner from the first place finishers of classes within each category of Division III and an overall winner from first place finishers of Division IV. One Judges' Choice winner will be selected from this group.
12. After judging, the public may choose their favorite entry (People's Choice) during an election between 12:00 pm and 4:00 pm on Saturday, September 18th.
13. Competition gourds may be made available for sale. Upon registration, entrants should identify the sale price to the committee. The competition committee will accept cash or check from the buyer on behalf of the seller and pass proceeds to the seller. Gourds sold during the competition must remain in the exhibit until 4 pm Saturday afternoon, September 18th.

14. Entries that win their Category, the People's Choice, or Judges' Choice awards will remain in the exhibit until Sunday afternoon, September 19th.
15. Out-of-State entries should coordinate logistics with competition chair.

Requirements for Growers' Gourds

16. No squash or pumpkins, including sweet dumplings and/or miniature pumpkins, are to be used in entries or displays.
17. Mature gourds that have started to dry or cure may be exhibited, but they should be free of spoiling or diseased areas.
18. The Illinois Gourd Society strongly recommends that all fresh and dried gourds exhibited have stems attached. The presences/absence of stems may affect the awarding of ribbons, but will not disqualify an entry. Stems on gourd craft items are optional.
19. Information on the Jim Story award is on page 4.

Requirements for Crafted Gourds

20. Gourds may be purchased or grown for crafting.
21. All work must be done by exhibitor(s), except as noted. Collaborative entries on craft projects are allowed, so long as each collaborator contributed significantly to the project.
22. All open gourds need to be cleaned to remove surface dirt and membrane. They need to be finished, inside and out, for show quality. Stems are optional, but must be cleaned if left on the gourd.
23. No parts from endangered or threatened animal or plant species may be used.
24. The Illinois Gourd Society encourages emphasizing the fresh and natural qualities of the gourds. Consequently, plastic or artificial materials are discouraged, except where noted, but are not prohibited. For instance, silk flowers are permissible in certain floral arrangements; and items such as fantasy animals or fishing lures may benefit from the use of artificial embellishments.
25. Live evergreens are not permitted. Artificial trees are permissible where used as part of a display.
26. Recognition will be given for the Judges' Choice Award (of special appeal to the judging coordinators) and the People's Choice (selected by the public).

Awards

Jim Story Memorial Award: For Divisions I & II: Ornamental or Hard Shell Classes 4 & 12. Jim Story was a gourd legend, a teacher, and gourds molder. In honor of Jim Story, The American Gourd Society instituted an annual, national competition in his name, which involves hand-trained gourds. The winners of Classes 4 and 12 automatically will be entered in the competition at the State level, and a special team of judges from the Show Committee will select an entry to continue to the AGS competition. For this competition, an entrant will be required to complete a questionnaire about his/her gourd-growing process and sign an agreement to have his/her work published in the AGS Magazine. Photographs demonstrating a tutorial on how to achieve the results of the entry would hold more weight in selecting a winner. The Illinois Gourd Society will follow AGS rules for this competition. AGS rules are available at <http://www.americangourdsociety.org>. Rules for entry also were published in, "The Gourd", Spring 2009.

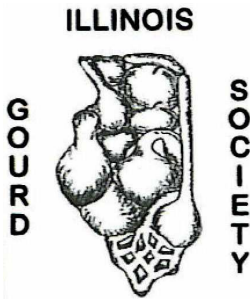

Growers' Best: Show judges will select an outstanding entry from Divisions I (Current Season Gourds) and II (Dried Gourds) to receive a Growers' Best Award.

Judges' Choice: Show judges will select an outstanding entry from Divisions III (Gourd Craft) and IV (juniors) to receive the Judges' Choice Award.

People's Choice: Show visitors will elect their favorite entry from Divisions I, II, III and IV.

Show Theme: "Energy in Motion"

Our show theme this year challenges us to appreciate the energy used in everyday life and how it moves our days and activities. Imagine how you might express energy's role in weather, transportation, exercise, gardening, farming, industry, sciences, recreation, sports, music, conservation, or other natural or human activity.

Definitions and Examples

1. **Artificial Sinew:** Artificial sinew is a waxed nylon imitation of natural sinew (animal tendon), used as a binding/beading material. Artificial sinew is allowed on all entries.
2. **Beading:** Use of beads to apply design and patterns to a gourd. May or may not cover entire gourd.
3. **Chipping:** A type of carving performed with gouging tools to "chip" out a small piece of gourd at a time.
4. **Colored Gourd:** a gourd whose color has been changed with dye, paint, crayon, pencil, marker, or other commonly accepted coloring media.
5. **Covered Container:** A cut gourd with a cover. The cover may be made from a gourd piece or other material. Examples: bowls/vessels with a lid, jewelry and music boxes.
6. **Current Season Gourd:** A fresh, recently-harvested gourd, which still contains the green coloring and water weight it had when harvested.
7. **Cut Gourd:** Any gourd whose surface has been cut, partially or completely, with a tool such as a knife, saw, hot wood burning pen, awl, or other implement. The gourd does not have to be cut into two pieces; just cut completely through the shell. Examples: bowls, vases, covered containers, baskets.
8. **Dry Gourd:** A hollow, dried shell of a fruit in the Cucurbitaceae (or Cucurbit/gourd) family of plants.
9. **Embellishment:** Any decorative item, natural or artificial, attached to a gourd for the purpose of improving the appearance of the work. Examples: beads, charms, seeds, walnut slices.
10. **Fretwork:** Design work produced by cutting through the gourd shell and removing some portions entirely.
11. **Gourd Basket:** A gourd with the top cut off and a carrying handle attached or cut so that part of the gourd remains to function as a handle. The general appearance is a container with a handle for carrying items.
12. **Gourd Bowl:** A gourd with the top portion cut off. The general appearance is a container intended to sit.
13. **Gourd Vessel:** A cut gourd bowl, vase, or other container (does not include baskets); with or without a lid/cover. May sit or hang.
14. **Hand Carving:** Any result of removal of a portion of the shell of a gourd exposing the undersurface using hand tools. Knives, gouges, or any other non-power tools may be used for this general result.
15. **Inlay:** The application of a secondary material into a carved section of a gourd.

16. **Inside Surface Finishing:** The inside surface of cut gourds and covered containers may be painted, stained, decoupage or otherwise finished.
17. **Luminary:** A source of light, low light, or a complete lighting unit. Any result of removal of a portion of the shell of a gourd exposing the undersurface using hand tools.
18. **Man-made materials:** Man-made materials are allowed on all entries *unless otherwise specified*. Examples: paints, dyes, glass or plastic beads, wires.
19. **Mosaic:** Execution of a design on a gourd by setting small tiles into an adhesive medium, using small gourd pieces or other material.
20. **Natural Materials:** These materials are allowed on all entries and may be dyed. Examples: linen/cotton cords, animal or plant parts, pine needles, flowers.
21. **Pen and Ink:** The application of lines and shaded areas to form a drawing on a gourd using a pen and ink. Common pens include refillable pens and pre-filled pens.
22. **Power Carving:** Any result of removal of a portion of the shell of a gourd exposing the undersurface using predominantly power tools. Additional use of hand tools for accent is allowed.
23. **Predominate (ILGS CBG Competition):** If a category states "predominate", "predominant", or some other indication of a majority of a material or technique, then the piece should exhibit at least 75% of that material or technique.
24. **Sculpture:** Any material allowed when joining or combining multiple gourds. Paints, stains, inks, dyes, and finishes also may be used.
25. **Translucent and clear protective finishes:** These finishes are allowed on all entries, *except where otherwise specified*. Translucent finishes may be colored, but they must be sufficiently sheer to see the gourd's natural characteristics and markings through them. Examples: colored shoe polish, dye.
26. **Whole Gourd:** An uncut gourd, whose shell is intact.
27. **Wood burning:** Marking the surface of a gourd using heat, ordinarily using a wood burner system. Other possibilities include heated metal tools or torches.

COMPETITION CLASSES

Please review all class descriptions, as some have changed from last year and others are new this year.

DIVISION I: Current Season Gourds

Note: This is a "Growers Division" as listed in the AGS Judging Handbook.

Note: All classes in this Division are open to both Hard Shell and Ornamental gourd entries.
